SUMMARY

Computer Science Sophomore with experience in front-end development, object-oriented programming, and functional programming, seeking internship opportunities in fall 2023.

EDUCATION

B.S. Computer Science Expected Dec 2025
Arizona State University, Tempe, AZ 3.69 GPA

A.A.S Aviation Maintenance Technology May 2014
Community College of the Air Force, Montgomery, AL

TECHNICAL SKILLS

Programming Languages: JavaScript, TypeScript, Bash

Front-End: HTML, CSS, React.JS, TailwindCSS, SCSS

Tools, Databases, and OS: Storybook.js, Firebase, Git, GitHub, Linux/Unix, Neovim, Webpack, Jest.js

PROFESSIONAL EXPERIENCE

super-productivity.com: Open Source Contributor Spring 2022

- Corrected UI issue by isolating problematic **SCSS**, resulting change merged into production branch

RELEVANT PROJECTS

Memespace, Personal Project Fall 2022

- Built web app utilizing **React** and third party APIs so users can create/share memes
- Integrated **Firebase** database for storage and user authentication
- Utilized **Git** bisect to isolate production build failure to one commit
- Written with **TypeScript** for type safe data fetching and handling
- Created modular UI components using **TailwindCSS** and **Storybook.js**

Battle Ship, Personal Project Fall 2022

- Board game built with vanilla **JavaScript** and **Webpack**
- Wrote 35 tests covering 3 modules and 16 functions using **Jest.js**

WORK EXPERIENCE

Lockheed Martin, Balad, Iraq: Senior Aircraft Technician 12/2017 - 01/2020

- Hand selected for aircraft engine maintenance run certification

EXTRACURRICULAR EXPERIENCE

Seven Peaks Meetups, Bangkok, Thailand

- Attended monthly meetings to gain experience in Software Engineering and User Experience related topics
