## Experience

---

**Senior Aircraft Maintenance Technician** / *Lockheed Martin, Balad AB, Iraq* **Dec 2017 – Jan 2020**

- Performed scheduled and unscheduled maintenance on F-16 aircraft, ensuring mission readiness and compliance with technical orders.
- Diagnosed and resolved complex mechanical, hydraulic, electrical, and avionics discrepancies under strict time constraints.
- Conducted pre-flight, thru-flight, and post-flight inspections to verify aircraft airworthiness and safety.
- Managed and documented maintenance actions using Air Force maintenance information systems.
- Coordinated with avionics, propulsion, and munitions teams to resolve cross-system issues efficiently.
- Reduced repeat maintenance discrepancies by implementing improved troubleshooting and documentation practices.
- Supported flight-critical aircraft systems in deployed operational environments
- Executed maintenance, inspection, and corrective actions in accordance with technical orders and quality standards
- Collaborated with engineering, QA, and production teams to resolve non-conformances and return aircraft to service
- Developed strong discipline in safety, documentation, and process compliance under mission-critical constraints

## Education

---

**Community College of The Air Force** / *Montgomery, AL, USA*

**Jul 2009 – May 2014**

- A.A.S. in Aviation Maintenance Technology

## Core Skills

- 
- Preventive & Corrective Maintenance
  - Mechanical & Electrical Troubleshooting
  - Hand & Power Tool Proficiency
  - Safety & PPE Compliance
  - Technical Documentation & Checklists
  - Quality Inspections
  - Team-Based Operations
  - Shift / Overtime Availability
